

Every single coffee bean has been ethically and sustainably sourced direct from coffee growers across the globe ensuring that only new season harvests are used so that our coffee is as fresh as possible. Our coffee is a blend of Triple certified Honduran, Peruvian, Sumatran and Ethiopian coffee beans expertly roasted to produce a coffee with bright, sweet aroma followed by soft roast notes and a hint of fruit. To us, certifications are principles and that is why we only source coffee with all three of the Fairtrade, Rainforest Alliance and Organic.
